Presented at dusk 8/22 thru 8/26

VETERAN VEHICLE PROJECT

America's Road Home invites you to be their guest at a private, premiere of the latest projection art performance by this internationally renowned artist.

Cocktails and dinner will feature Denver Mayor John Hickenlooper, CBS4's Molly Hughes, and a very personal presentation from the artist regarding the development of his latest work, which gives a voice and a face to the struggle of homeless veterans and their families today.

This will be an unforgettable night of conscious giving, world-class art, and at fresco dining, underwritten and hosted by America's Road Home. All proceeds from donations will go to support Denver's Road Home.

The projects of public artist, Krzysztof Wodiczko give participants the opportunity to speak about their traumatic experiences. Through the animation of historic public buildings and monuments in cities such as Krakow, Boston, Hiroshima, Tijuana, St. Louis and Barcelona, his video projections create spaces for individual therapy and public reflection.
